A LINCOLN ELECTRIC COMPANY

HARRIS PRODUCTS NOW AVAILABLE

The Harris Products Group is a world leader in metalworking products used in the brazing, soldering, welding, cutting and gas distribution industries. The company offers excellence in the manufacture of: Gas welding and cutting equipment - Industrial and specialty gas regulation equipment - Gas distribution systems - Brazing and soldering alloys - Welding alloys - Pre-formed bends, rings and return bends. Harris makes products that are durable and built to last. That's why we offer a **7-year warranty** on our most popular industrial regulators!

MODEL 72-3 CUTTING ATTACHMENT

HAR-1300380
\$305.79 ea

MODEL 85 C/W CHECK VALVES

HAR-1401340
\$211.49 ea

IRONWORKER MEDIUM DUTY

HAR-4400366
\$384.29 ea

IRONWORKER HEAVY DUTY

HAR-4400367
\$412.89 ea

MODEL 62-5E ACETYLENE 18"

HAR-1003430
\$469.00 ea

MODEL 62-5FL FUEL GASES 21"

HAR-1003470
\$469.00 ea

MODEL 25GX CGA-540 OXYGEN

HAR-3000510
\$152.89 ea

MODEL 25GX CGA-510 ACETYLENE

HAR-3000380
\$152.89 ea

Expires July 31, 2018

"More Fabrication and Machine Shops use Bi-Metal band saw blades than any other style of blade"

PREMIUM PRODUCTS from givers of **SUPERIOR SERVICE**

Facility Consumables & Equipment

Bridgit® lead-free solder is specially formulated to fill both tight and loose-fitting connections. The nickel content in Bridgit® solder creates joints that are substantially stronger than those joints soldered with 50/50, 95/5 or common lead-free solders.

Stay-Brite® is a silver bearing eutectic alloy with a single melting point of 430°F (221°C). Eliminates oxide scale formed from brazing heat. No nitrogen purge is required for HVAC/R tubes. Cadmium free and nontoxic.

The **95/5** tin-antimony solder is useful for applications where moderately elevated temperature is a factor. It has a higher electrical conductivity and is sometimes used where lead contamination must be avoided.

STAY-CLEAN® PASTE SOLDERING FLUX

Excellent flux for joining copper-to-copper and copper-to-brass. Not recommended for electrical or electronic applications.

BRIDGIT® HIGH TEMPERATURE PASTE SOLDERING FLUX

Designed for lead-free solders. Well suited for use in larger connections where prolonged heating will cause other fluxes to burn.
